

IMPORTANT FILLING INSTRUCTIONS and

The Right Way to Fill your Sheaffer Pen with the *One-Stroke Touch Down Filler*

UNSCREW CAP—

at top of barrel and pull out plunger to full length.

IMMERSE— entire point in *Skrip*

work plunger up and down several times—this cleans the pen and moistens the fissures in the fluid control.

THE PEN FILLS— on the down stroke

Push plunger all the way down just once. Wait . . . count ten slowly as pen fills full. Screw knob back on barrel and your pen is ready to write—wipe point clean with cloth or tissue.

to Fill your *Lever type pen*

Immerse entire point in SKRIP; open and close the lever; for flushing purposes open and close lever several times; allow

point to remain in SKRIP for ten seconds after closing lever for last time; remove and wipe point clean with cloth or tissue.

HOW TO FILL YOUR
